<p><b>Term</b></p> <p>Business plan</p>
<p>APICS CPIM Learning System</p> <p>© 2025</p>

<p>1) A statement of long-range strategy and revenue, cost, and profit objectives usually accompanied by budgets, a projected balance sheet, and a cash flow (source and application of funds) statement. [It] is usually stated in terms of dollars and grouped by product family. [It] is then translated into synchronized tactical functional plans through the production planning process (or the sales and operations planning process). Although frequently stated in different terms (dollars versus units), these tactical plans should agree with each other and with [this concept]. See: long-term planning, strategic plan. 2) A document consisting of the business details (organization, strategy, and financing tactics) prepared by an entrepreneur to plan for a new business.</p>

**Term**

Hurdle rate

APICS CPIM Learning System

© 2025

The minimum acceptable rate of return on a project.

**Module 1**

*Section H: Capital Equipment and Facilities*

**Term**

Internal rate of return

APICS CPIM Learning System

© 2025

The rate of compound interest at which the company's outstanding investment is repaid by proceeds from the project.

**Module 1***Section H: Capital Equipment and Facilities***Term**

Net present value (NPV)

APICS CPIM Learning System

© 2025

The present (discounted) value of future earnings (for which operating expenses have been deducted from net operating revenues) for a given number of time periods.

**Module 1***Section H: Capital Equipment and Facilities***Term**

Opportunity cost

APICS CPIM Learning System

© 2025

1) The return on capital that could have resulted had the capital been used for some purpose other than its present use. 2) The rate of return investors must earn to continue to supply capital to a firm.

**Module 1***Section H: Capital Equipment and Facilities***Term**

Payback

APICS CPIM Learning System

© 2025

A method of evaluating an investment opportunity that provides a measure of the time required to recover the initial amount invested in a project.

**Module 1***Section H: Capital Equipment and Facilities***Term**

Profitability index

APICS CPIM Learning System

© 2025

In financial management, the net present value of a projected stream of income from a project (potential investment) divided by the investment in the project. It is used to select among competing potential investments.

**Module 1***Section H: Capital Equipment and Facilities*

**Term**  
Residual income

APICS CPIM Learning System

© 2025

The net operating income that an investment center earns above the minimum required return on its operating assets.

**Module 1***Section H: Capital Equipment and Facilities*

**Term**  
Return on investment (ROI)

APICS CPIM Learning System

© 2025

A relative measure of financial performance that provides a means for comparing various investments by calculating the profits returned during a specified time period.

**Module 1***Section H: Capital Equipment and Facilities*

**Term**  
Scheduled downtime

APICS CPIM Learning System

© 2025

Planned shutdown of equipment or plant to perform maintenance or to adjust to softening demand.

**Module 1***Section H: Capital Equipment and Facilities*

**Term**  
Sunk cost

APICS CPIM Learning System

© 2025

1) The unrecovered balance of an investment. It is a cost, already paid, that is not relevant to the decision being made about the future. 2) Capital already invested that for some reason cannot be retrieved. 3) A past cost that has no relevance with respect to future receipts and disbursements of a facility undergoing an economic study. This concept implies that since a past outlay is the same regardless of the alternative selected, it should not influence the choice between alternatives.

**Module 1***Section H: Capital Equipment and Facilities***Term**

Time value of money

APICS CPIM Learning System

© 2025

The cumulative effect of elapsed time on the money value of an event, based on the earning power of equivalent invested funds.

**Module 1***Section H: Capital Equipment and Facilities***Term**

Total productive maintenance (TPM)

APICS CPIM Learning System

© 2025

Preventive maintenance plus continuing efforts to adapt, modify, and refine equipment to increase flexibility, reduce material handling, and promote continuous flows. It is operator-oriented maintenance with the involvement of all qualified employees in all maintenance activities. Syn.: total preventive maintenance.
