Factors to consider in the decision include costs, capacity availability, proprietary and/or specialized knowledge, quality considerations, skill requirements, volume, and timing.</div>

Module 3

Section A: Aligning Sourcing to Demand

Term Offshore

APICS CSCP Learning System

© 2025

Outsourcing a business function to another company in a different country than the original company's country.

Module 3

Section A: Aligning Sourcing to Demand

Term Outsourcing

APICS CSCP Learning System

© 2025

The process of having suppliers provide goods and services that were previously provided internally. [This] involves substitution—the replacement of internal capacity and production by that of the supplier. See: subcontracting.

Module 3

Section A: Aligning Sourcing to Demand

Term Subcontracting

APICS CSCP Learning System

© 2025

Sending production work outside to another manufacturer. See: outsourcing.

Module 3

Section A: Aligning Sourcing to Demand

Term Total cost of ownership (TCO)

APICS CSCP Learning System

© 2025

The sum of all the costs associated with every activity of the supply stream.
