Module 8
Section B: Sustainability

Term
Environmentally responsible business

APICS CSCP Learning System

© 2025

A firm that operates in such a way as to minimize detrimental impacts on society. See: green manufacturing, green supply chain.

Module 8
Section B: Sustainability

Term
Environmentally responsible manufacturing

APICS CSCP Learning System

© 2025

A collection of manufacturing activities that includes design of the product, facility, manufacturing processes, logistics, and supplier relationships that reduce or eliminate environmental waste through innovation and improvements.

Module 8
Section B: Sustainability

Term
Environmentally sensitive engineering

APICS CSCP Learning System

© 2025

Designing with consideration of how a product or its packaging will ultimately be disposed.

Module 8
Section B: Sustainability

Term
Global Reporting Initiative (GRI)

APICS CSCP Learning System

© 2025

A network-based organization that pioneered the world's most widely used sustainability reporting framework.

Module 8
Section B: Sustainability

Term
Global Reporting Initiative (GRI) Reporting Framework

APICS CSCP Learning System

© 2025

The framework that sets out the principles and performance indicators organizations can use to measure and report their human rights, labor, environment, and anticorruption practices and outcomes.

Module 8
Section B: Sustainability

Term
ISO 14000 Series Standards

APICS CSCP Learning System

© 2025

A series of generic environmental management standards, developed by the International Organization for Standardization, that provide structure and systems for managing environmental compliance with legislative and regulatory requirements and affect every aspect of a company's environmental operations.

Module 8
Section B: Sustainability

Term
ISO 26000

APICS CSCP Learning System

© 2025

An international standard adopted by the International Organization for Standardization to assist organizations in contributing to sustainable development beyond legal compliance through a common understanding of social responsibility. [This] is not a management system standard and is not intended or appropriate for certification purposes or regulatory or contractual use.

Module 8
Section B: Sustainability

Term
ISO 9000

APICS CSCP Learning System

© 2025

A set of international standards about quality management and quality assurance developed to help companies effectively document the quality system elements to be implemented to maintain an efficient quality system. The standards, initially published in 1987, are not specific to any particular industry, product, or service. The standards were developed by the International Organization for Standardization, known as ISO, a specialized international agency for standardization composed of the national standards bodies of 91 countries. The standards underwent major revision in 2015 and now include ISO 9000:2015 (definitions), ISO 9001:2015 (requirements), and ISO 9004:2015 (guidance).

Module 8

Section B: Sustainability

Term

Organization for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

APICS CSCP Learning System

© 2025

A set of recommendations about responsible business conduct addressed by governments to multinational enterprises (MNEs) operating in or from adhering countries that encourage and maximize the positive impact MNEs can make to sustainable development and enduring social progress. See: multinational corporation.

Module 8

Section B: Sustainability

Term

SA8000

APICS CSCP Learning System

© 2025

A widely recognized international standard for managing human rights in the workplace. It provides an auditable framework for assuring that social accountability is being stewarded by an organization.

Module 8

Section B: Sustainability

Term

Sustainability

APICS CSCP Learning System

© 2025

An organizational focus on activities that provide present benefit without compromising the needs of future generations.
